Lions of Bath 2010

Winsor & Newton are delighted to confirm our support of the Lions of Bath 2010 event.

Together with our Premier Art Centre retailers based in Bath, MinervaGraphics and FJ Harris, we are offering all the artists working on this project a 10% saving across our NEW Artists Acrylic range. All artists working on the project will be issued with a discount card to use in store.

This project offers a fantastic visual way of promoting the brilliance and depth of colour in our new range of Artists' Acrylic paint. One of the other features is that there is no colour shift between wet and dry which will be an enormous benefit to the artists, as the lions will be 6ft long and approximately 4ft high, they will take anywhere from a week to two months to paint! Being able to match the colours you have already painted on your lion sculpture will certainly be an advantage.

We are also offering a prize of £500 worth of artists' materials to the artist of our favourite lion and the opportunity to feature on our website www.winsornewton.com

Happy painting to all the artists – we look forward to seeing the finished works of art at the mane event!

For further information on the Artists Acrylic range please visit our website. For any other enquiries please contact:
